The Laerdal® Suction Unit

The award-winning Laerdal Suction Unit is the ultimate in high performance. It’s rugged enough to take anywhere – in the ambulance or the hospital. Unique one-touch testing, built-in charger, and 5-year warranty validate its claim to fame as the one to beat.

Raising the standard for EMS suction units, in-hospital and postcare units, the LSU features industry-first device diagnostics, a “No Tools” replaceable battery, built-in charger, and an integrated vacuum regulation/power control. All this in a rugged “bump-proof/splash-proof” design that is very quiet.

The Laerdal Suction Unit Includes: Suction Unit, AC and DC Cords, Canister with Patient Tubing, Battery, Vacuum Tubing, and Directions for Use.

78002001 | LSU with Disposable Bemis Canister ............................................. $835.00

V-VAC™ Manual Suction Unit

Get a good grip on handling even the toughest suction scenario with Laerdal’s V-VAC Manual Suction Unit. Ideal for First Responder emergency kits and as back-up suction. One-handed operation, one-piece disposable cartridge, and unique no-clog suction tip make the V-VAC the manual suction unit of choice!

985000 V-VAC Starter Kit .......................................................... $100.00
985100 V-VAC Training Kit ..................................................... $95.00

V-VAC Training Kit for Practical Use Includes:
Handle, Training Cartridge with plug for emptying and cleaning, Catheter w/Adapter Tip, Double Male Connector, and Directions for Use.

985001 Replacement Cartridge ............................................ $15.00
985101 Training Cartridge ..................................................... $28.00
985200 Carry Bag (yellow) ....................................................... $18.00
985002 Adapter Tip (pkg. 4) ................................................. $18.00
985003 Double Male Connector (pkg. 10) ....................... $18.00
985004 Short Suction Catheter (8”/18 F) (pkg. 4) .............. $10.00
985030 Replacement Handle .............................................. $77.00

V-VAC Starter Kit for Patient Use (shown above) Includes: Handle, 2 Replacement Cartridges, Short Suction Catheter w/Adapter Tip, Double Male Connector, and Directions for Use.

The V-VAC unit fits easily into many emergency kits. A separate carry bag is also available.

The soft tip of the intake valve has deep cutouts to help prevent tube occlusion, and also soft tissue injury, when the tip is held against the back of the throat. The tri-cut valve resists back flow of suctioned matter.
